

NORTH AMERICAN WETLANDS CONSERVATION ACT

[Public Law 101–233, Approved Dec. 13, 1989, 103 Stat. 1968]

[As Amended Through P.L. 111–149, Enacted March 25, 2010]

AN ACT To conserve North American wetland ecosystems and waterfowl and the other migratory birds and fish and wildlife that depend upon such habitats.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. [16 U.S.C. 4401 note] SHORT TITLE.

This Act may be cited as the “North American Wetlands Conservation Act”.

SEC. 2. [16 U.S.C. 4401] FINDINGS AND STATEMENT OF PURPOSE.

(a) FINDINGS.—The Congress finds and declares that—

(1) the maintenance of healthy populations of migratory birds in North America is dependent on the protection, restoration, and management of wetland ecosystems and associated habitats in Canada, as well as in the United States and Mexico;

(2) wetland ecosystems provide essential and significant habitat for fish, shellfish, and other wildlife of commercial, recreational, scientific, and aesthetic values;

(3) almost 35 per centum of all rare, threatened, and endangered species of animals are dependent on wetland ecosystems;

(4) wetland ecosystems provide substantial flood and storm control values and can obviate the need for expensive man-made control measures;

(5) wetland ecosystems make a significant contribution to water availability and quality, recharging ground water, filtering surface runoff, and providing waste treatment;

(6) wetland ecosystems provide aquatic areas important for recreational and aesthetic purposes;

(7) more than 50 per centum of the original wetlands in the United States alone have been lost;

(8) wetlands destruction, loss of nesting cover, and degradation of migration and wintering habitat have contributed to long-term downward trends in populations of migratory bird species such as pintails, American bitterns, and black ducks;

(9) the migratory bird treaty obligations of the United States with Canada, Mexico, and other countries require protection of wetlands that are used by migratory birds for breeding, wintering, or migration and are needed to achieve and to maintain optimum population levels, distributions, and patterns of migration;

(10) the 1988 amendments to the Fish and Wildlife Conservation Act of 1980 require the Secretary of the Interior to identify conservation measures to assure that nongame migratory bird species do not reach the point at which measures of the Endangered Species Act of 1973 are necessary;

(11) protection of migratory birds and their habitats requires long-term planning and the close cooperation and coordination of management activities by Canada, Mexico, and the United States within the framework of the 1916 and 1936 Migratory Bird Conventions and the Convention on Nature Protection and Wildlife Preservation in the Western Hemisphere;

(12) the North American Waterfowl Management Plan, signed in 1986 by the Minister of Environment for Canada and the Secretary of the Interior for the United States and in 1994 by the Secretary of Sedesol for Mexico, provides a framework for maintaining and restoring an adequate habitat base to ensure perpetuation of populations of North American waterfowl and other migratory bird species;

(13) a tripartite agreement signed in March 1988, by the Director General for Ecological Conservation of Natural Resources of Mexico, the Director of the Canadian Wildlife Service, and the Director of the United States Fish and Wildlife Service, provides for expanded cooperative efforts in Mexico to conserve wetlands for migratory birds that spend the winter there;

(14) the long-term conservation of migratory birds and habitat for these species will require the coordinated action of governments, private organizations, landowners, and other citizens; and

(15) the treaty obligations of the United States under the Convention on Wetlands of International Importance especially as waterfowl habitat requires promotion of conservation and wise use of wetlands.

(b) PURPOSE.—The purposes of this Act are to encourage partnership among public agencies and other interests—

(1) to protect, enhance, restore, and manage an appropriate distribution and diversity of wetland ecosystems and habitats associated with wetland ecosystems and other fish and wildlife in North America;

(2) to maintain current or improved distributions of wetland associated migratory bird populations; and

(3) to sustain an abundance of waterfowl and other wetland associated migratory birds consistent with the goals of the North American Waterfowl Management Plan, the United States Shorebird Conservation Plan, the North American Waterbird Conservation Plan, the Partners In Flight Conservation Plans, and the international obligations contained in the migratory bird treaties and conventions and other agreements with Canada, Mexico, and other countries.

SEC. 6. [16 U.S.C. 4405] CONDITIONS RELATING TO WETLANDS CONSERVATION PROJECTS.

(a) PROJECTS IN THE UNITED STATES.—(1) Subject to the allocation requirements of section 8(a)(2) and the limitations on Federal contributions under section 8(b) of this Act, the Secretary shall assist in carrying out wetlands conservation projects in the United States, which have been approved by the Migratory Bird Conservation Commission, with the Federal funds made available under this Act and section 3(b) of the Act of September 2, 1937 (16 U.S.C. 669b(b)), as amended by this Act.

(2) Except as provided in paragraph (3), any lands or waters or interests therein acquired in whole or in part by the Secretary with the Federal funds made available under this Act and section 3(b) of the Act of September 2, 1937 (16 U.S.C. 669b(b)), as amended by this Act, to carry out wetlands conservation projects shall be included in the National Wildlife Refuge System.

(3) In lieu of including in the National Wildlife Refuge System any lands or waters or interests therein acquired under this Act, the Secretary may, with the concurrence of the Migratory Bird Conservation Commission, grant or otherwise provide the Federal funds made available under this Act and section 3(b) of the Act of September 2, 1937 (16 U.S.C. 669b(b)), as amended by this Act or convey any real property interest acquired in whole or in part with

such funds without cost to a State or to another public agency or other entity upon a finding by the Secretary that the real property interests should not be included in the National Wildlife Refuge System: *Provided*, That any grant recipient shall have been so identified in the project description accompanying the recommendation from the Council and approved by the Migratory Bird Conservation Commission. The Secretary shall not convey any such interest to a State, another public agency or other entity unless the Secretary determines that such State, agency or other entity is committed to undertake the management of the property being transferred in accordance with the objectives of this Act, and the deed or other instrument of transfer contains provisions for the reversion of title to the property to the United States if such State, agency or other entity fails to manage the property in accordance with the objectives of this Act. (b) PROJECTS IN CANADA OR MEXICO.—Subject to the allocation requirements of section 8(a)(1) and the limitations on Federal contributions under section 8(b) of this Act, the Secretary shall grant or otherwise provide the Federal funds made available under this Act and section 3(b) of the Act of September 2, 1937 (16 U.S.C. 669b(b)), as amended by this Act, to public agencies and other entities for the purpose of assisting such entities and individuals in carrying out wetlands conservation projects in Canada or Mexico that have been approved by the Migratory Bird Conservation Commission: *Provided*, That the grant recipient shall have been so identified in the project description accompanying the recommendation from the Council and approved by Migratory Bird Conservation Commission. The Secretary may only grant or otherwise provide Federal funds if the grant is subject to the terms and conditions that will ensure that any real property interest acquired in whole or in part, or enhanced, managed, or restored with such Federal funds will be administered for the long-term conservation and management of such wetland ecosystem and the fish and wildlife dependent thereon. Real property and interests in real property acquired pursuant to this subsection shall not become part of the National Wildlife Refuge System. Acquisitions of real property and interests in real property carried out pursuant to this subsection shall not be subject to any provision of Federal law governing acquisitions of property for inclusion in the National Wildlife Refuge System.
